

ESOF 2018
EUROSCIENCE OPEN FORUM
TOULOUSE

What is ESOF?

The EuroScience Open Forum is the largest interdisciplinary meeting on science, innovation and their relation with society in Europe.

Since 2004, under the auspices of EuroScience and with support from the European Commission, several thousands of researchers, business actors, policy makers and journalists from all over the world get together every second year to discuss science and innovation. More than 40% of the participants are students and young researchers.

ESOF offers also a unique framework for interaction with the general public during the Science in the City Festival. The city chosen to host the event becomes "European City of Science".

FOR THE 1ST TIME IN FRANCE (9-14 July 2018)
